

# **ASTRO COUNSELING SESSION**

(1<sup>st</sup> mail)

Welcome to Astro-Counseling sessions with me. A short while ago I had prepared "All your Concerns" report, hence I am aware of some of the important concerns in your life at the present moment. The objective of Astro Counseling sessions are somewhat different from the astrology reports that we prepare for you. The format is also different.

In Astro-counseling sessions, we shall together go through the analysis of your chart. We shall try to authenticate your astrological chart with actual events in your life. This will synchronize the events with Astro-signatures and changes in Astro-signatures.

In this order, you already have mentioned about your concern about your freight forwarding operations.

We shall be more concerned here not so much on when and what will happen but more on why things happen and what should be your best strategy to deal with the Astro signatures in your chart.

The format we shall follow will be as follows:

I shall send you 4 e-mails during the course of Astro-counseling sessions. In each of this mail, I shall ask you some questions and shall also make some observations on your chart. They will be interactive in the sense that you will have to send me your replies to the questions that I ask in a particular mail as well as your reaction to the observations that I shall make, whether you agree to them and if you do not agree to them, and your reasons why you do not agree with me.

I shall be sending you my next mail only after I receive your replies to my previous mail.

It is important that you should be totally honest and sincere when you reply to my mail and even if I have made a completely wrong observation, you should not hesitate to point it out to me.

Needless to mention that whatever information you will share with me during these Astro-counseling sessions will remain strictly confidential between you and me as understood as confidential information between a client and a professional consultant.

Your information will be only used for the purpose of these counseling sessions only and not for any other purpose.

### **My List of Questions:**

- 1) When the change in erst-while Soviet Union took place and Latvia became independent country, you were around 20 years of age. What studies you had done and what career you had planned for yourself under the Soviet hierarchy?
- 2) What was your parent and family's social status in the erst-while Soviet party hierarchy? Were you part of establishment? Or were you part of the dissident or part of the deprived?
- 3) What was your progress in your career during the transition, which finally had landed you to freight/forwarding agent business with foreign collaboration? List out all the ventures that you tried successfully and unsuccessfully since then.
- 4) Have you been able to accumulate Capital through the various business ventures that you must have tried since 1990?
- 5) Your own venture was started earlier and subsequently you created the joint venture with foreign company or did you create your own venture later?
- 6) Which Venture is doing better at this moment? Do each of them has distinctly different areas of operation or overlapping operations?
- 7) If possible, please give the dates of incorporation of both your ventures.
- 8) What is the exact status of your relationship at the present moment? In all your concern report, you had mentioned of possibility of marriage to a foreigner. Was that an academic query or you have possibilities of a specific relationship going with a foreign person?
- 9) Jupiter is retrograde in your chart. Jupiter retrograde sometimes make it impossible to make oneself completely free from any relationship (short term/long term), whether in business or in personal life? What had been the actual state of affairs in your life so far?
- 10) What is the state of your relationship with your mother and sister? How close are you with them? Are you living with your mother in her house allotted to her during the soviet period?

- 17) What is your present business growth model? At what percent you want to grow in future?

18) Are you making profits in both your projects? Does the project with foreign company ensure a minimum fixed income every month for you?

**My observations:**

The first 17 years of your life you had experienced the main period of Saturn in your life. Saturn is the lord of your Ascendant and is debilitated in your chart. This should be very challenging and difficult period in your life. Do you agree or not? When exactly did your father pass away? This information will help me in authenticate your chart?

Did you have your first serious relationship with the opposite sex between August 1989 and June 1993?

When did you first get interested in occult/astrology or religion in general?

I have come to the end of our first counseling session. I shall look forward to your reply within next 7 days.

In our next session we shall discuss the complete analysis of your chart.

With warm regards
