

BUSINESS SUCCESS REPORT – TO BE ENTREPRENEUR

Name	XYZ
Date of Birth	XYZ
Time of Birth	XYZ
Place of Birth	XYZ

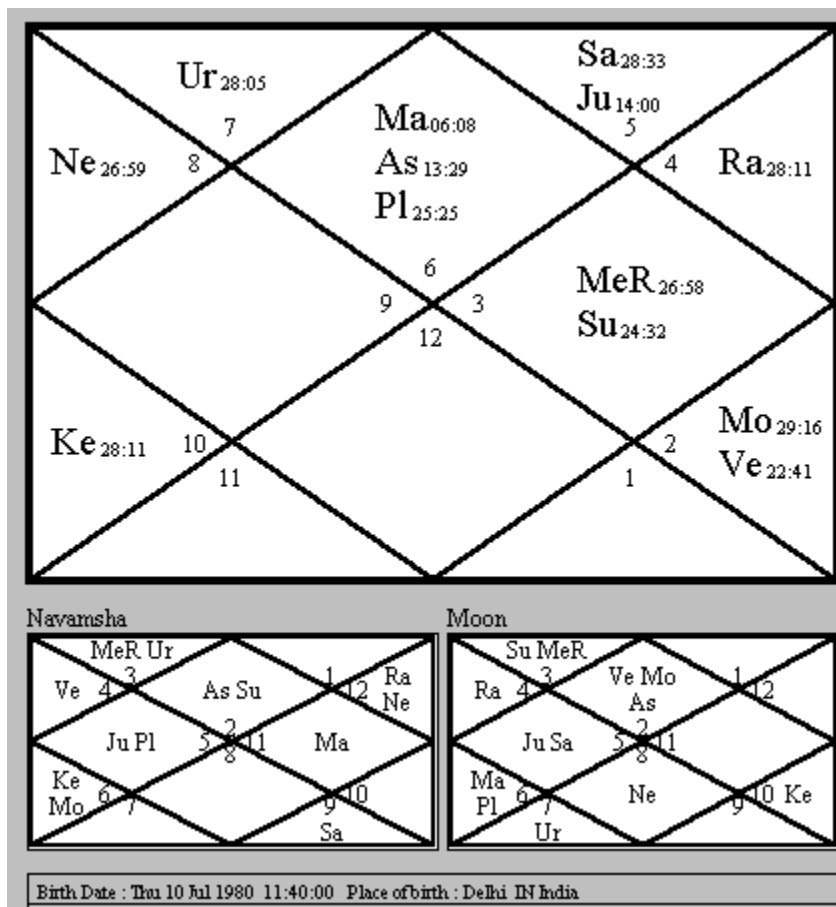

Preamble:

You are thinking of starting your own business organization. This will mean you have already thought about what products or services that you wish to create or distribute. Who are likely to be your customers, what kind of resources of people, infrastructure or machines and capital you may require to produce your products and services. In your inputs, you have mentioned that you are software professional and you are presently working as Manager Technical with a doctor company.

To become an entrepreneur and to run your own business will mean that you will have to set up an organization and a defined process consisting of people, infra-structure and functions like marketing, selling, quality check, finance and customer support which will be necessary to deliver your products and services to the end customer and to ensure customer satisfaction and customer delight. This is because business means creation of self-sustaining machinery to create continuous wealth. It does not matter what will be the scale and size of your business. As a start up company many of these functions will be actually managed by you and will be scaled up only when business will demand so. However creating the process will be key to success in your business venture only then it will become self-sustaining and will not depend on your special skills alone.

Your Birth Chart:

The important parameters in your birth chart:

Your Ascendant: Virgo

Your Sun-Sign: Gemini

Your Moon-Sign: Taurus

Exalted Planet: Moon located in 9th house, Taurus.

Debilitated Planet: None

Retrograde Planet: Mercury, which is lord of Ascendant as well as lord of 10th house.

Natal status of each of the planets in your chart:

We have listed above the natal promise of all the 9 Vedic planets in the chart based on their status in the chart. There are likely to be lot of contradictions about their significance in different aspects of life. The same planet may be beneficial for a particular aspect in one's life by it's house location but it can be inauspicious for the same aspects in life because of the lordship of houses in the chart. One planet can be beneficial for a particular aspect in life and can promise great success and at the same time another planet can be most inauspicious and promise complete failure for the same aspects in life.

Usually different astrological effects do not cancel or neutralize each other. Both the positive as well as the negative effects can affect a person's life.

How much positive and how much negative will depend on the planet's strength, its functionality whether auspicious or inauspicious, and its dignity in the chart, and also its strength in the chart.

These calculations are complex and are not only made for the natal chart but is also made on the different divisional charts which are derived from the natal chart. An astrologer has to examine all these quantitative and qualitative aspects of each planet in the chart, before he can make a final judgment about each planet on how much positive and how much negative effects the planet will be responsible for different aspects of life in a person. His experience will also play a key role to arrive at a final judgment.

We give below in a table the strength of each planet in the chart and what will be the overall role of the planet in a person's life as per the astrologer's judgment.

Planet	Dignity (Based on Sign location)	Lordship	Functional Status Auspicious /Inauspicious	House Location	Planet Natal Strengths			Final Judgement by Astrologer

Explanation of Natal status of Planet Table

A) Dignity:

Dignity of planet is based on its relationship with the sign where it is located in the natal chart: The dignity largely decides what kind of results the planet will give in its period /sub-periods/sub-sub periods. If the dignity is good then there are bound to be good results. If the dignity is not good then there are bound to be some bad results. No matter whether the planet is functionally benefic/malefic or strong and weak in different strength calculations. The dignity of any planet can be any of the following in descending order of the planet's ability to give good results during its period/sub-periods/sub-sub periods.

- 1 Exalted: results most outstanding
- 2 Mool trikona: results excellent
- 3 Own: results good in general
- 4 Great Friend: Generally good results
- 5 Friend: Mixed but generally ok
- 6 Enemy: Mixed but generally malefic
- 7 Great Enemy: Generally malefic

8 Debilitated: most challenging

B) Lord ship and functionality:

Lord ship of each planet as per different ascendants in the natal chart indicates functionality of the planet for different aspects in our life throughout our life. Functionality can be Auspicious, Inauspicious, Neutral, Most Auspicious or most Inauspicious

C) Different Strength calculations of the Planet and their significance:

1 ShadBal: This is the absolute modular strength of the planet and signifies the quantum of it's effects in our life irrespective of the functional status or dignity. A Benefic planet with low Shadbal must be strengthened with Gem therapy to make it more effective. A malefic planet with high shadbal must not be strengthened with Gem therapy because it's malefic effects will increase also Instead they must be harmonized with Yantra or propitiated with Yagnas and Mantras. This strength is very important for astrologer while he recommends astrological remedies. The minimum effective shadbal should be 1.0. The maximum can go up to 2.5 in a chart.

2 Vimsopak Bal: Vimsopak Bal is calculated based on the dignity of the planet in 16 divisional charts computed from the Natal chart. Each divisional chart signifies a specific aspect of life. For example Navamsa chart signifies spouse and marital life. The Dasamsa chart signifies profession and career. The maximum Vimsopak bal of a planet can be 20, which will signify the planet will be beneficial for most aspects in life. An average strength of 10 will signify the planet will have mixed effects for different aspects of life. Less than 10 will signify the planet will be mostly inauspicious in most aspects in our life.

3 Ashtakbarga Natal strength: This signifies the potential of the planet to deliver positive results during transit in relation with other planets positive and negative effects. The maximum strength can be 8, which signifies the planet can give outstanding results in transit. For Saturn and Mars, if the Ashtakbarga strength is more than 3 units, it will mean it will give generally positive results. For remaining 5 planets (excluding Rahu/Ketu) the natal strength must be 5 units or more to have the potential to deliver beneficial results in relation to all other planets.

Your astrologer will consider all these factors before he makes his final judgment. His judgment will be as follows:

- 1 Outstanding
- 2 Excellent
- 3 Very good
- 4 Good
- 5 Mixed
- 6 Challenging
- 7 Most challenging

Strength and Weakness in your personality as per your chart:

We will now analyze your basic strengths and weakness in your personality which will be either supportive for your business success or will be challenges that you must overcome in order to be successful in your own business venture.

The support factors:

- 1) Your Ascendant: Ascendant signifies the way you will express your body, mind and soul to the world at large. Your Ascendant is Virgo, which is ruled by Mercury. Mercury signifies business and transaction. Your personality will definitely support your business venture. As a Virgo person, you should be a good craftsman. Your knowledge is seldom theoretical, it is usually tied to some form of practical manifestation. You are often discriminating and exacting about details, and you have a natural helping attitude, which will give you a strong customer orientation. Your customer will be able to depend on you to receive value for their money, by having practical, reliable and cheaper solution to their problems through the software were application that you will design for them.
- 2) Mars is located in your Ascendant, hat will give you a strong focus and never-say die attitude to complete any task that you undertake.
- 3) Moon is exalted in your 9th house, the house of destiny and Venus is also located in 9th house in it's own sign, will make you especially lucky and will make you successful in business with foreign countries. For software business, this will be a great asset.
- 4) Mercury, lord of 10th house, the house of profession is located in it's own sign will be greatly supportive for software business and validates that you are in right profession.
- 5) 12th house lord Sun is located in your 10th house as well as 4th house lord Jupiter is located in your 12th house again signifies that you will be more successful in your profession in a foreign or in a far-off place from your motherland or birth place, or you will be more successful with foreign clients than with domestic clients.

1) Challenges:

Mars and Pluto are located in your Ascendant will give you an intense personality. You can be very stubborn and can have a big ego, which may not be very favorable for inter-personal relationship. You have to develop a more flexible attitude, and you must be willing to learn or to take help from others. Business success is all about networking and people management skill to get the best from them.

2) Mercury is retrograde in your chart.

You may not be very comfortable with facts, figures, and calculations and objective reality. You will be more comfortable with an intuitive approach to handle any problem. You may be often right with your conclusions, but you cannot ignore hard facts and calculations specially when you will have to decide about investment or when you are thinking about creating new product

and services. Your intuition will not be enough, they have to be backed up with facts and figures specially when you would like investors to fund your ideas for expansion and growth.

Saturn your 5th lord and 6th lord is located in 12th house, Leo. You have very low coefficient for failure, and you may give up in the middle. Successful entrepreneurs have a high tolerance and persistence in face of failure. He does not give up, and he keeps on trying till his idea or strategy eventually succeeds and he is willing to change and admit his failure and he makes course corrections on the way.

Your Primary motivation to start your own business:

There are many reasons why a person suddenly wants to start his/her own business. The most common reason is a person is not happy about his own job or his boss and he is frustrated that he is not getting any other job either. However such a reason is not enough for a person to start his/her own business and usually it is not a very serious reason either.

The other reason, because of the person's very independent nature would like to start his/her own business where they are not answerable to anybody else. Often this is a very strong motivation for a person to start his/her own business. However in this case, the person does not have any clear idea or a clear strategy on how/ what/when to start his own business.

The other reason, is a person thinks that he will get unlimited income when he will have his own business and can then enjoy greater material benefit and luxury than his present level with a fixed salary. This is also not a very sustainable reason for him to start his own business. The moment he will get a better job than his present job, all his desires will vanish.

Finally the most sustainable reason which prompts a person to become an entrepreneur because he has one unique idea and a general strategy which he wants to implement at any cost and because he cannot do so in his present environment, he takes the plunge to become an entrepreneur. This is the profile of most of successful entrepreneurs because he understands the meaning of successful business is to create a self-sustaining machinery to create wealth. He may fail in his first attempt but he does not give up and eventually he achieves success.

As per your chart, your primary motivation to start business of your own is your desire to be independent, and to become master of your destiny.

Astrological Remedies:

You must strengthen the lord of your ascendant and lord of your 10th house Mercury with Gem therapy. This will help you to formulate a clear strategy and a business plan. This is a life time prescription for you.

You should strengthen the planet Mercury by wearing an ***Emerald*** weighing 4 to 5 carats in potency. It must be mounted on a gold ring and worn on the little finger of your right hand. The gem must be put on first on a Wednesday morning.
