

BIRTHTIME RECTIFICATION REPORT

XYZ

Date of birth: mm/dd/yyyy

Place of birth: Name of city, country

Time of birth: hh:mm:ss

I have evaluated in detail more than ten natal charts, which have been prepared by working on the birth information provided by you in order to rectify your time of birth. After all this process, I have come to a conclusion that your current birth time 16:42 pm is most accurately predicting the events in your life. Hence, the birth time of 16:42 pm seems to be your correct time of birth.

It is to be noted that as per your natal chart, you are a strong Manglik. In such a situation, your romantic life may not be very smooth and blissful. In other words, you are likely to face problems and obstacles in enjoying a happy romantic life. Moreover, from your ascendant, Mars is posited in the 8th house in your natal chart. From your Moon sign Pisces also, Mars is placed in the 4th house. This indicates that you might meet and develop relationship with more than one person in life, but making a permanent relationship would be a difficult task for you. The planetary placement of Rahu in your 4th house is instrumental in creating an atmosphere of instability and uncertainty in almost every aspect of life. As a result, you are likely to come across problems and difficulties in almost every sphere of life, especially on the romantic front.

The natal chart of birth time 16:42 pm also confirms all the past events in your life as well as the good health of your parents. However, there could be some problem with parents on the relationship front. During the period between January 1988 and April 1990, you were under the sub period of Jupiter in the main period of Mercury, when most of the important events of your life had taken place. Since the planet Jupiter is your 2nd house lord as well as the lord of house of education and is placed in the 12th house, so during this sub period, you had completed your high school and got a chance to study abroad. As Jupiter is in 12th house, so you had separated from the family, went abroad etc. At the same time, during the main period of Ketu between December 1992 and December 1999, you might have started working but could not get settled in life.

From the above analysis, it is concluded that the natal chart of 16:42 pm is accurate, as it authenticates all the incidents of your life in better manner.
