

Kundali Milapak Report

Kundali Milapak is a unique and ancient 8-fold test of horoscope matching between a man and woman's charts for marriage. This ancient technique of Vedic Astrology was formulated about 3,000 years ago and compares various aspects of the natal chart taking the Moon sign in the chart as the primary factor.

The Natal Charts of the man and the woman are drawn and comparatively tested in eight different ways. Each test has a score. While the maximum points that can be achieved under each test are different, the full 8-fold test can yield a maximum score of 36 points. A score of 16 is deemed to be the minimum for a reasonable match. Marriages are not recommended for a result below 16.

Modern Relevance

Since these tests were formulated 3,000 years ago and based on the social norms and the role of marriage in the ancient society, we have also made this ancient test applicable to the new millennium by pointing out the basis of how the tests were scored, so that you can apply your own judgment of how important a particular aspect is in your personal relationship.

Although the techniques and the basis of this comparison originated in ancient times, the analysis has not lost its relevance today. This analysis brings out the difference in personality and nature between two people in a quantitative and more precise manner than any other astrological tool. It proves to be very accurate and relevant even today in gauging compatibility and the areas of strengths and weakness in a relationship.

The Scoring System

In presenting you this analysis, we have maintained the integrity of ancient principles in the scoring system and the weightage given to various aspects. However, we want you to understand the principles behind it completely, so that you can understand the various aspects of your relationship in which you are completely compatible and where the problem areas may lie so that you are able to work on it.

In ancient times, the fundamental purpose of marriage was to carry on the lineage in a manner that increased the material and spiritual prosperity of the couple within the norms of social behaviors in that time. It is also to be understood that Women had been relegated to a subordinate or inferior role in the Man/Woman Relationship. The role of the woman, be it the Queen or the wife of an ordinary man in society, was at home and the primary responsibility was to look after the comforts of the husband, take care of the children as well as his parents and his entire family.

The system by which this test assigns scores is that when and if in a relationship, the horoscope chart of a woman rates higher and is superior in intellectual, mental or physical powers than the chart of the man's, then the test will fail and there will be a low score or a zero score. The highest score is also given in this test in a woman's

ability to be a mother.

We encourage you to study this test very closely for its ability to point out the difference in personality and ego between two different people and their strengths and weakness in maintaining a nurturing, caring and growing relationship over time.
