## The State of Mind

According to Vedic thoughts, there exists a "Universal Mind" to which all of our minds are in continuity, so that we can convey our thoughts directly to one another. By this theory, mind is cosmic and unlimited. By tuning individual minds to the cosmic mind, there is nothing that soul cannot acquire or experience or know. All powers of the mind are physic powers. They have to be properly canalized to make the best use of them.

If Moon is afflicted, the mind is affected, memories are dull and one cannot reciprocate quickly or easily, whereas, when the Moon is strong, it makes a person sympathetic, quick to connect and respond. ### **The Connecting Force**

---

Venus is that planet whose energy is impersonal and unselfish. It is the planet of pleasure; however it is for us to connect to the higher energy of Venus and not get lost or engulfed in the lower sense of gratification. The Venusian is the embodiment of love, sympathy, warmth and attractiveness.

Where Venus is unaffiliated, Grace, marks the expression of mind and passion; this often results successfully in the attraction of sexes. Venus is the spirit of the mind - the connection to the joyous energy that envelopes this earth. A good Moon and a bad Venus is ineffective. However, the mind has a connection with that which is omnipotent. Efforts directed in the positive way can elevate to the higher energy of Venus. After all, Venus is a benefic planet.

The Venus in the Natal Chart of xyz is in II House in the sign Scorpio. The Venus for xyz is in III House in the sign Capricorn.

Liberal or normal persons may find your affection overbearing. Your love could turn into hatred due to jealousy and suspicious mind. Timid and delicate partners will excite your sensuality but you may frighten them away with your high sex drive

xyz, you are a person of strong beliefs and strict life style. Your loved ones may find you suffocating and restrictive if you do not control your nature. However the good point is you will be just as strict in maintaining sincerity in your affections. Your sense of responsibility will be very high and family will ultimately benefit from your

xyz, you will want a luxurious life complete with wealth, material comforts and sensual pleasures. You will also enjoy a witty and clever disposition. This will be more apparent in your speech. In social gatherings or in company your input will be both interesting and innovative. Your dynamic personality will have an aura of confidence and good life. You will also appear alluring to members of the opposite sex with your large expressive eyes which will speak most of the things that you will not actually say

xyz, your senses will be overactive and attentive to your environment. You will have a magnetic personality, which will attract the opposite sex. Love and romance will have a great potential for you but you will be dreamy and wondrous. Reality may not be what you will perceive in your mind's mirror, this may lead to some amount of dissatisfaction in your marital life or romantic alliance. You will want to maintain peace and harmony and may shy away from problematic situations. It is worthwhile to mention that most of these situations may be created by you

### **The Power of Action**

---

Mars represents action valor and that element of ego, without which our logical thinking and its subsequent manifestation is ineffective. Mars gives strong athletic body, while Venus takes care of body luster. Mars denotes feeling that is personal and selfish. Our self is a very important and subtle factor which governs our happiness. The perfect balance between self and its manifestation of potential is the ruling factor that governs our happiness. The word "selfish" may sound very strong and outside the synergy of Vedic thought but between two human beings it has the power to breaking a relationship or making one.

It is the power of action that ties two hearts together. In the context of Mars, it is imperative that the Martian Energy be balanced; after all life is not a war that one has to win at any cost.

The Mars in the Natal Chart of xyz is in IX House in the sign Gemini. The Mars for xyz is in I House in the sign Scorpio.

xyz, you are often driven by and engrossed in romantic thoughts. The process of love to become all pervading and beyond all barriers needs connection of the mind. You may not be very receptive to aggressive and whose primary connection is body chemistry. There is a subconscious reluctance in this aspect unless the mind is satisfied and secure. However once this connection is established you will have a wonderful and tender reflection of sensual love. You must have a warm and sensitive partner. Your imagination can run riot and there may be a touch of impracticality and impossibility in your expectations. This is a danger zone which left uncontrolled can pave the way for disappointments in life. The relationship may take a while to mature but once that time is allowed naturally, you will be a constant source of delight and surprise for your spouse or mate. Love making will then come easily to you

xyz, you are sensual and passionate in matters of the heart. You expect your partner to rise up to the occasion with equal fire and heat. Your perfect mate cannot have inhibitions unless you can term them, timidity or innocence. These kinds of persons make your hormones run wild. Strong sexual urge is never a problem for you but you do not appreciate, "a come on baby attitude". Your ego must be massaged well. You love sex and like to fantasize while in the act. It is quite possible for you to have explosive sex with a person you cherish and imagine the body to be fresh to your touch. Rapid arousal or a second arousal is not impossible with your kind of sex drive. This factor can be very exciting for one while devastating for another. You are careful in this respect and normally do not divulge such details unless absolutely certain. Your ideal partner has to be demonstrative about sexual intimacies or a timid one whom you can teach the tricks of the trade and mould according to your desire. It is an exciting experience for you and not a biological need

xyz, you are a considerate person with normal sex drive. You and your partner have good understanding in love and sex. You are also conservative to some extent and do not like your privacy to be encroached upon. You have healthy sex and enjoy the feeling especially when your partner takes over. Your gentleness and sensitivity has the power to heighten the pleasures of the senses till nothing remains except the two of you as one. You are cautious and overly concerned about the likes and dislikes of your mate. At a certain time you may find that the same partner finds this irritating and restrictive. Physical union is like the rainbow, time changes the colors and you cannot hold it in your hand

xyz, you are not an indiscriminate seeker of pleasure. You know your limitations and fidelity is the keystone of your sexual encounters. You will enjoy every encounter with vigor but not without a generous dollop of tenderness. You will be very possessive about your mate. The formalization of the relation in the eyes of the society will not be the key factor in your case. It is the intensity of emotion and the nostalgia of shared delights that will shape your thoughts. You would like your ardor and skill to be acknowledged, it need not be any voluble outpouring but for you verbal acknowledgement is a must. A too shy or overcritical mate can leave you dissatisfied. Your mate, unless suffering from inimical astral signature in love and sex, will also be mighty satisfied
