Dear XYZ,

“It is with great pleasure that we present you your personal astrological signatures in a complete new look with added features from our proprietary 'Karma Index' report.”

We thank you for giving us the opportunity to analyse your birth chart.

It is not Vedic Astrology's purpose to replace an individual's responsibility to decide for themselves or to present a fait accompli forecast for the future. We believe that you control and shape your own destiny by your Karma and your efforts. However, this report tells you, how much and when the planets will be supportive for you or they will be challenging and can create obstacles and difficulties on your path.

We believe that stars will influence only 75%, and rest 25% is controlled by your own actions. However, sometimes that 75% may become critical over which you may not have any control.

Explanation of Natal status of Planet Table

A) Dignity:

Dignity of planet is based on it's relationship with the sign where it is located in the natal chart: The dignity largely decides what kind of results the planet will give in it's period /sub-periods/sub-sub periods. If the dignity is good then there are bound to be good results. If the dignity is not good then there are bound to be some bad results. No matter whether the planet is functionally benefic/malefic or strong and weak in different strength calculations. The dignity of any planet can be any of the following in descending order of the planet's ability to give good results during its period/sub-periods/sub-sub periods.

- 1 Exalted: results most outstanding
- 2 Mool trikona: results excellent
- 3 Own: results good in general
- 4 Great Friend: Generally good results
- 5 Friend: Mixed but generally ok
- 6 Enemy: Mixed but generally malefic
- 7 Great Enemy: Generally malefic
- 8 Debilitated: most challenging

B) Lord ship and functionality:

Lord ship of each planet as per different ascendants in the natal chart indicates functionality of the planet for different aspects in our life throughout our life. Functionality can be Auspicious, Inauspicious, Neutral, Most Auspicious or most Inauspicious

C) Different Strength calculations of the Planet and their significance:

1 ShadBal: This is the absolute modular strength of the planet and signifies the quantum of it's effects in our life irrespective of the functional status or dignity. A Benefic planet with low

Shadbal must be strengthened with Gem therapy to make it more effective. A malefic planet with high shadbal must not be strengthened with Gem therapy because its malefic effects will increase also. Instead they must be harmonized with Yantra or propitiated with Yagnas and Mantras. This strength is very important for astrologer while he recommends astrological remedies. The minimum effective shadbal should be 1.0. The maximum can go up to 2.5 in a chart.

2 Vimsopak Bal: Vimsopak Bal is calculated based on the dignity of the planet in 16 divisional charts computed from the Natal chart. Each divisional chart signifies a specific aspect of life. For example Navamsa chart signifies spouse and marital life. The Dasamsa chart signifies profession and career. The maximum Vimsopak bal of a planet can be 20, which will signify the planet will be beneficial for most aspects in life. An average strength of 10 will signify the planet will have mixed effects for different aspects of life. Less than 10 will signify the planet will be mostly inauspicious in most aspects in our life.

3 Ashtakbarga Natal strength: This signifies the potential of the planet to deliver positive results during transit in relation with other planets positive and negative effects. The maximum strength can be 8, which signifies the planet can give outstanding results in transit. For Saturn and Mars, if the Ashtakbarga strength is more than 3 units, it will mean it will give generally positive results. For remaining 5 planets (excluding Rahu/Ketu) the natal strength must be 5 units or more to have the potential to deliver beneficial results in relation to all other planets.

Your astrologer will consider all these factors before he makes his final judgment. His judgment will be as follows:

- 1 Outstanding
- 2 Excellent
- 3 Very good
- 4 Good
- 5 Mixed
- 6 Challenging
- 7 Most challenging

House Location of Planet:

The house where the planet is located, its effects will be maximum for that house in your life. This will be followed by the Lords of houses that the planet rules in the chart. A planet will also give results for the houses that it aspects. Which aspects of your life each house signifies, you can read in the explanation of different index given in the Karma index table.

Please go through this explanation of Karma index and the significance of each index given below.

1st House

Soul Index:

This gives the progress of astrological signature for the Soul. As such, this Index signifies the health of our inner and outer self and how we are building up our physical and mental potential. It represents the inner self (the Soul), and the outer self (the Body). It indicates the way we project ourselves--our behavior and attitude to the external world, as well as our physical attributes.

2nd House

Wealth Index

This indicates the progress of astrological signature for our capacity to accumulate material wealth. It projects our earning capacity through our own efforts and represents how we are managing the surplus between our income and expenditure of material possessions to create a continuous flow of wealth. Since such wealth can be used for the prosperity of our entire family and society, this index will also signify the material prosperity of our entire family and our extended family.

3rd House

Efforts Index

This represents our basic energy in life and gives the progress of astrological signature on how effectively we are utilizing our inherent courage and efforts. This signifies the impulse and intention that drive us, and monitors whether we are being able to bring forth our full potential into our Karma or not. Since our siblings and friends are meant to help us in our efforts, this index also signifies the astrological signature for the prosperity, and our relations with our siblings and friends. A logical extension of this is that this index reflects our capacity to project our will on the external world, our overall communication effectiveness.

4th House

Happiness Index

This gives the astrological signature of our capacity to feel good, and our basic emotional nature determining our capacity for joy in this life. Thus, this index signifies our physical and emotional security level, and monitors our capacity for rest and relaxation as well as peace of mind. The logical extension is that the index should capture our accumulations of creature comforts like good house, conveyance and other luxury items of comfort. On an emotional

level, this index will measure our comfort level with our mother, family, motherland, in general everything that constitutes domestic bliss for our life.

5th House Creativity Index

This gives the astrological signature of our potential to create new things and new ideas. It monitors how creatively we are utilizing our knowledge, our karma, our desire and our efforts. It signifies our level of intelligence. Thus when we are young, this index will give the signature for our educational and academic achievements. This index is also one of love, specifically for children. The finest example of our desire and sensual pleasure is the birth of our progeny from our union of love. Thus, this index gives the astrological signature for the well being and prosperity of our children. This index also captures our feelings of love and romance for another person. It tracks infatuations and love affairs but not relationships of long-term commitment, which are represented by the Spouse Index.

6th House Disease Index

This gives the astrological signature for disturbance of ease in our life. Disease actually means Disturbance of Ease ' for any aspect of life. If it is disturbance of ease for the physical body, a negative value of index will represent ' illness '. If it is disturbance of ease in vocation, the negative value of index will represent enmity, obstacles, litigation, and debts. It normally signifies oppositions, difficulties and obstacles in life. A positive value of index will represent that we are being able to carry out all our ' Karma ' without any obstacles, and even if there are obstacles we will be able to overcome them successfully.

7th House Spouse Index

This gives the astrological signature of our relationships with our partners in life, and also signifies their well being. The most important partner in our life is our life partner and that is why we call this index the ' Spouse Index '. This will also indicate our successes and failures in our business negotiations, and in trading activities. It will also indicate relations with our business associates and partners. This index also captures astrological signatures for short journeys that we may undertake. A positive value of the index will mean successful short journeys and a negative value of the index will mean problems and difficulties in such journeys

8th House Windfall Index

This gives the astrological signature for sudden unexpected fortunes and misfortunes. Though windfall is usually associated with gain, we are using this term to signify both unexpected gains and losses. These events are not expected, strike suddenly and seem to be unavoidable. The positive index value signifies unexpected monetary gains like unexpected inheritance, or gains in gambling, speculation and lotteries. It also signifies unexpected new opportunities and contacts, which will be profitable. The negative index value signifies the reverse--calamities, accidents, and losses in speculation, gambling and even death. As mentioned already, these are the results of past Karmas and Destiny and, according to us, this is that one index which probably cannot be altered by our own efforts. The difference between the Disease index and this index is that the Disease index is not unexpected and sudden, but this one is. However, one can make contingency plans through one's efforts to minimize the impact.

9th House

Destiny Index

This gives the astrological signature for our "Destiny". It represents our prime values, principles, and ideals as well as spiritual and ethical disposition. It signifies the honor, prestige, recognition and acceptance we will receive in this life. If this index is positive and going up during a particular period, it signifies that Destiny is favorable to us and whatever efforts we put in will produce favorable results. If this index is negative and going down, it means destiny is unfavorable and we will have to put additional and more creative energy to achieve success in our efforts.

10th House

Vocation Index

This gives the astrological signature of how we will progress in our Vocation, how we will perform our ordained duties and the effect of our actions upon the world. Thus, this index will depict our professional success and failure, and our social status, power and influence. This index will also depict the well being of our father like the Happiness Index represents the well being of our mother. In general this index will signify our relations with Government, our superiors and people in authority.

11th House

Desire Index

This gives the astrological signature of how our desires are being fulfilled. Thus, this index depicts actual material gain or income that we achieve through our efforts, creativity, and our vocations. A positive value and upward trend may indicate that our gain may be even higher than the efforts that we are actually putting. Similarly, a negative value and downward trend may indicate that our gain will not be commensurate to our efforts.

12th House

Detachment Index

This gives the astrological signature of how our material and physical assets are getting detached from us. This index will depict our material outflow, expenditure or losses. Thus, a positive index will denote expenditures for profitable investments, or expenses for a noble cause like charity. In today 's global economy, a positive index can also mean successful and profitable foreign relations and ventures. A negative index will indicate investments turning sour and expenditures purely for gratification of our senses and physical desires.

Dasha Signature:

Principles of Dasha System:

The Dasha Vichar or planetary periods of Vedic Astrology provide a unique and comprehensive system for judging the effects of planets throughout the development of our lives. They are the most accurate system for showing how the planets distribute their effects through time and the different stages of our lives.

The most common of these systems of planetary periods is the Vimshottari Dasha or the "120-year cycle". This follows a predetermined sequence, the starting point of which is determined by the longitude of Moon at the time of birth. In it, each of the seven major planets plus the two Lunar Nodes are given specific periods. This entire life span is divided into different main periods of planets and within this main period, there are sub-periods of all the planets and then each sub-period can be divided into sub-sub-periods of planets. The effects of the planets become most operative during the Main Dasha or the sub-Dasha. The transit effects and the relation between the Main planet and the sub-planet also determine whether the good effects will be more predominant or the bad ones.

We give your Dasha Table below:

We will give the forecast for the year 2012 based on the planet periods, sub periods and sub sub-periods in your life and during the year. These forecasts are based on the nature, strength and roles of planets in your life as per the planet table and house table. Our forecast is also based on the actual transit of planets during the year 2012 and what relations or aspects they are making with the planets in your natal chart.

Dasha Signature in year 2012:

According to your horoscope, you are presently passing the mahadasha of Mercury from May, 2009 till May, 2026. In your horoscope, mahadasha lord Mercury is a malefic lord, having lordship of third and sixth houses. It is placed in the house of gains, with auspicious trinal lord Sun and fourth lord Moon. Mercury is also under the influence of malefic Saturn (also the lord of profession in your horoscope). It is participating in strong 'rajayogas' as well as 'dhanayogas' promising success in career as well as financial prosperity during this period. In your profession you will attain a high and authoritative position in career and you could also have more than more changes in job. Any change in job during this period will mostly bring further professional success. Dasha lord Mercury will also be promising in financial matters. Since the dasha lord is under multiple planetary influences, it is most likely that you may have several sources of income during this period.

During this period you may undertake several journeys. You may also acquire a landed property during this period. In personal relations this may not be a very promising period and there could be disturbances in your family environment. There could also be slight tensions

and discords between you and your spouse. There could also be concerns related to your progeny during this period.

You are presently passing the antardasha of Ketu from October, 2011 till September, 2012. In your horoscope, Ketu is placed in the fourth house in an inimical sign. It is under the influence of Mars and Saturn, two naturally malefic planets, indicating long distance journeys as well as changes in residence during this period. Due to the influence of these malefic lords on the fourth house, there could also be some kind of fire accident in your house.

Ketu placed in the fourth house is also influencing the house of profession. Due to the influence of auspicious ascendant lord Mars on dasha lord Ketu, it has acquired 'yogkarak' status in your horoscope. Therefore, during this period, despite professional hurdles and struggles, you will achieve success in your career and may also get a promotion in job. During this period, there could also be some changes in your work location. In financial matters, period will promise moderate success.

Overall, dasha of Mercury/Ketu promises mixed results in your life. Although you may achieve professional success, however, in family life or personal relations you may experience tensions and disturbances. You must also avoid getting into any kind of discord or dispute in this period.

Your Second Concern: Will I get a promotion?

Answer: According the pattern of dashas in your horoscope, promotion in career is most likely in the year ahead. You are likely to get a promotion in your career between December, 2011 and March, 2012. You are presently passing the dasha of Mercury/Ketu from October, 2011 till September, 2012. In your horoscope, mahadasha lord Mercury placed in the house of gains is associated with auspicious trinal and Kendra lords. It is participating in strong and auspicious 'rajayogas' as well as 'dhanayogas' with these planets, promising overall growth and promotion in your career, with higher designation as well as higher salary.

Antardasha at this stage is of Ketu, placed in the fourth house. Ketu is under the influence of lord of profession Saturn and auspicious ascendant lord Mars. In your horoscope, Ketu attains a 'yogkarak' status and it therefore promises to give auspicious results related to your career in the form of promotion. Therefore, during this dasha, especially in the former half of 2012, promotion in career is most likely.
