### **Your horoscope explanation:**

Sun is a benefic planet for you and governs seventh house in your birth chart. It is favourably placed in fifth house in your birth chart. Its good placement, strength and influence is favourable for enjoying good health and vitality most of the time. In addition to this, your will power is strong and you are capable enough to inspire others and provide leadership in most of the functions you like to undertake. Above all, its placement and strength is favourable for enjoying marital bliss, long lasting partnerships as well as satisfactory social status.

Moon stands for sixth house in your birth chart. It is weak in strength due to the influence of a malefic planet Ketu on it. Its inherent weakness results in weak resistance power, trouble to or from mother/wife, financial constraints or loss in disputes/ litigation coupled with mental stress. In addition to this, you would encounter difficulties in overcoming adversary as well as paying back or recovering old dues.

Mars represents third and tenth house in your birth chart. It is well placed in fifth house, but is weak in strength. As a result, you may encounter difficulties in enjoying the traits of Mars to your satisfaction in routine life. For example its inherent weakness results in health problems (muscular or blood related), lack or loss of efforts, difficulties in acquiring properties or some sort of dissatisfaction from professional achievements. In addition to this, such planetary configurations make a person impatient, temperamental or non-flexible in approach.

Mercury is lord of fifth and the eighth house in your birth chart. It is well placed in the fourth house in your birth chart. This indicates that your intellect is sharp and your assessment, analytical and decisive powers are commendable. You are always alert, agile and have great power of observation and perception. Needless to say, such planetary configurations are favourable for enjoying undue favours, unexpected gains, fairly long lifespan as well as long lasting marital life.

Jupiter represents second and eleventh house in your birth chart. It is placed in its sign of exaltation in your birth chart. The exaltation of Jupiter is favourable for

enjoying good health, progeny bliss, benefits from friends, fulfilling desires as well as consolidating your monetary condition.

Venus is lord of fourth and the ninth house in your birth chart. It is weak in strength due to the close influence of the planet representing obstructions on it. Consequently you may encounter difficulties in enjoying the traits of Venus to their full strength in routine life. For example its natal weakness results in lack of charm, problem/s on account of wife, difficulties in enjoying luxurious lifestyle or struggle in attaining your aims.

Saturn is another benefic planet for you and represents first and the twelfth house. It is favourably placed in its sign of exaltation in the ninth house in your birth chart. Its good placement and strength indicate that you are a wise, clever, practical person and your life's mission is to fulfil your duties and responsibilities. Basically you are a down to earth person and capable of measuring the usefulness of everything in terms of its impact on everyday life. This is pertinent to mention that the good placement and strength of Saturn have been instrumental for enjoying good health and satisfactory social standing in your case.

Rahu and Ketu are the natural malefic planets. Both of them are influencing the benefic houses in your birth chart. The malefic nature and influence of these planets result in difficulties in enjoying suitable rewards of your sincere efforts. In order to minimise their evil influences, you should observe patience, maintain calm and work hard to attain your aims.

**Your Question:** Will I be free from debts based on my career?

**Answer:** The planet Moon represents the house of debts in your birth chart. It is weak in strength due to the influence of a malefic planet on it. This weakness of Moon would result in difficulties in paying back or recovering old dues in your case. Therefore you should remain careful in this regard and as far as possible avoid borrowing and lending substantial sums of money.

Regarding your query, your expenses are likely to remain on the higher side during the present sub period that would last till 17<sup>th</sup> October 2008. Therefore you should try your best to keep a tab on your expenses. Notwithstanding the above, an improvement in your financial status is indicated from January 2009 and the period thereafter would be advantageous for achieving success in career, consolidating monetary condition as well as becoming free from debts. Therefore you should try to derive the maximum mileage.
