

XYZ

Date of birth: mm/dd/yy

Place of birth: Name of City, Country

Time of birth: hh:mm:ss

Question: 1

When should I change my current job and will it be fruitful?

Answer:

Dear XYZ

It is our practice to analyze the exact period of the relevant question, through a Question Chart, in the horary process and then have it confirmed through the inherent possibilities displayed by your natal birth-chart, it being the relevant chart corresponding to the specific cosmic signature at the time of your birth that holds good for the individual through one's life.

I have evaluated your birth chart as well as question chart with respect to your current job change related question. However, both the charts are indicating mixed results regarding the same so; I would advice you to stay some more time with your current job. This is because, in the question chart there are fixed signs placed in the ascendant as well as in the house of profession, which indicates stability in the current job as well as delay in the change of job. Though, the position of lord of ascendant Mars in the movable sign and the position of house of profession lord Sun in the dual sign could help you to change your job. However, the placement of Mars in the house of expenditure could not give you fruitful results so; you should remain with your current job for some more time. In conclusion, according to the above said planetary combination of question chart, you may get an opportunity for the change of job during the month of December 2008 and January 2009 but it cannot be said much beneficial in long term.

At the same time, according to your birth chart you could get an opportunity for the change of job in very near future because the period from 9th October to 2nd October 2008 could give you the chance. However, you should go with that change as well as negotiation with very carefully other wise you may accept a wrong job due to confuse situation. In overall your horoscope does not indicate very favourably for a job change in the near future so, it would be better if you stick with current one. According to the Dasha of planets the period from 6th September to 30th October 2009 could be instrumental for a change of job other wise the period from November 2009 to March 2010 would definitely give you a better job change. Therefore, in my opinion if you want to get a better job change with fruitful results in long term then you should continue with your current job till

August 2009. Other wise, you may look and try for a job change in immediate future where by the end of 2008 you could get a chance but should be very careful and consider all the positive and negative impact before accepting the same.

Question: 2

My financial position is going to improve and when?

Answer:

I have analysed your horoscope as well as question chart with respect to improvement in your financial position. However, both the charts are indicating mixed results regarding your finance also because the position of fixed sign in the ascendant of question chart indicates slow progress. At the same time, the retrograde motion of house of income lord Mercury indicates some reverse situation but house of expenditure indicates complete control on expenses.

However, your birth chart is indicating favourable with respect to financial position because currently the transit of Jupiter in the year 2008 and 2009 is very supportive and favourable in this regard. At the same time, currently you are under the main period of retrograde Jupiter till November 2021, which controls finance. Though, the whole main period of Jupiter could give you further rise and success in financial field but same time you may feel stressed due to the retrograde motion of Jupiter. Therefore, there could be improvement in your financial position but it could be slow in compare to your expectations. However, the sub period of Mercury from July 2010 to October 2012 and the sub period of Venus from October 2013 to May 2016 could give you better financial success and could strengthen the same. I would advice you to keep Shree Yantra in the north east corner of your home as well as your office and should also wear the Shree Yantra pendent in your neck to fulfil your financial desire.

Question: 3

Regarding my higher studies, I am not able to concentrate or start it even. What should I do?

Answer:

I have analysed your horoscope with respect to your above question and would like to inform you some facts or indication of your birth chart. First of all your horoscope indicates higher study in foreign land so; you should try for the same with any academic institution situated abroad. At the same time, during the most important part of your academic life you were under the main period of Rahu, which might have created lots of hurdles to complete your studies. However, in future the sub period of Mercury from July 2010 to October 2012 would be very

supportive in this regard so, you should plan to start your study during the above said period only.

Regarding your concentration related problem there are two planets to be responsible, which are Rahu and Jupiter so, you should try to take remedial measures for the same. Since, currently you are under the influence of the main period of retrograde Jupiter, which might give you some baseless thoughts as well as emotional stress. Therefore, it could harm your concentration power and might also strengthen negative traits of personality like feeling of unnecessary fear, worries, feeling of restless and lack of concentration. I would advice you to worship Lord Vishnu regularly as well as chant Aaditya Hirdya Stotra, which will make you strong internally and you will be able to over come the negative traits of your personality.

[Comment on the impact of Red Coral:](#)

Though, in my opinion according to your birth chart Red Coral should give you better results in your professional life even then in some rare cases it may produce some negative results. Therefore, if you are not feeling comfortable with this gem stone then despite of my astrological disagreement I would advice you to remove the same.

[Astrological remedy](#)

As advice above to wear and keep Shree Yantra in your house as well as office you should wear the planetary Yantra for Jupiter to minimize the uncertainty and instability in your life due to the influence of the main period of retrograde Jupiter.

May God grant you peace, prosperity and happiness in life!
