Financial Prospect in your Natal Chart

The planets Mars and Jupiter are the lords of the houses governing profession and income in your birth chart. Both the planets are well placed as well as strong in strength. This indicates that you are an industrious person and blessed with excellent professional skills. In addition to this, such planetary configurations are favourable for attaining high degree of professional success as well as earning satisfactory income.

Needless to say, the good placement and strength of Venus the planet signifying luxuries, comforts and enjoyments is another positive feature in your birth chart and indicates that you possess fine tastes, good etiquette, enjoy living luxuriously and place the highest value on the material comforts.

Despite all these, the natal weakness of Moon and Mercury the planets representing debts and inheritance is likely to result in lack or loss of inheritance and difficulties in paying back or recovering old dues coupled with mental stress. Therefore you should remain careful regarding legacy and avoid borrowing/lending substantial sums of money.

Principles of Dasha System:

The Dasha Vichar or planetary periods of Vedic Astrology provide a unique and comprehensive system for judging the effects of planets throughout the development of our lives. They are the most accurate system for showing how the planets distribute their effects through time and the different stages of our lives.

The most common of these systems of planetary periods is the Vimshottari Dasha or the "120-year cycle". This follows a predetermined sequence, the starting point of which is determined by the longitude of Moon at the time of birth. In it, each of the seven major planets plus the two Lunar Nodes are given specific periods. This entire life span is divided into different main periods of planets and within this main period, there are sub-periods of all the planets and then each sub-period can be divided into sub-sub-periods of planets. The effects of the planets become most operative during the Main Dasha or the sub-Dasha. The transit effects and the relation between the Main planet and the sub-planet also determine whether the good effects will be more predominant or the bad ones.

We give your Dasha Table below:

Saturn is debilitated in your chart. You should wear a **Planetary Yantra for Saturn** around your neck in a chain. This is a lifetime recommendation for you.
