Introduction

According to Vedic Astrology, when the planet Mars is located in certain houses of the horoscope, it casts malefic influence on various life aspects of that person. A person having such an afflicted Mars status is known as a Manglik. This condition is also called the Kuja Dosha or the Bhauma Dosha (defect).

This report checks your chart for Mars afflictions based on a 100-point scoring system. Although a person may have certain conditions in their charts that make them candidates for Mars afflictions, there are various degrees of Bhauma Dosha. Some planet configurations cause strong Dosha (defects), while others are less virulent and some can even be called mild. Since there are only 12 houses and presence of Mars in any 5 of them make one a Manglik, nearly 42% of the population are likely to be Mangliks!! We will test your chart to find out to what extent, if any, Mars affects your chart. Factors such as conjunction of the Sun and Saturn, which affect the influence of Mars and can be responsible for marital discord, are also considered in this analysis.

The maximum havoc is caused when Mars is ill placed in the Natal or Birth Chart and maximum weightage is given to this condition. The higher the points scored, more are the malefic influences of Bhauma Dosha and other discordant planetary influences on a marriage, and remedial measures are a must!

In the chart below, as per our analysis of your birth chart, the following is your table of your planetary configurations which first checks to see if the possibility of Mars affliction exists in your chart:
