Report Introduction

Life is a mixture of favorable and unfavorable turn of events, which generate sorrow or happiness. Nobody is perfect and the birth chart shows us the ways and means of continuing to strive towards perfection. Life itself is a maze of the unknown, but there is always a bright ray, which navigates during the rough times.

The core understanding of personality and behavior is derived from the Natal Chart, but it is supplemented by a finer understanding of the effects of the Birth Star or the Nakshatra that is associated with each planet in the Natal Chart. The three principle aspects that shape our personality and behavior are the Natal Sun, the Natal Moon and the Ascendant, along with the Nakshatra that is associated with each.

This report will give you a comprehensive idea of what is your world within and help you in the process of improvement upon your own potential.

Your Birth Chart

Nakshatra & Planet Table

The strengths of the planets and their potential to influence favorable or unfavorable events in life depend on the location of the planet, their ruler ship of good or bad houses, which is determined by the individual Ascendant and their nature. It is further influenced by their special status whether they are exalted, debilitated, retrograde or combust. The Ascendant determines whether a planet is functionally benefic or malefic for the chart as a whole.

The Nakshatras are most commonly interpreted in relation to the moon's position in a chart. When the Moon occupies a specific Nakshatra, the meaning of the Nakshatra modifies what the planets represent in zodiac signs.

We present the status of each planet in your Natal Chart, in the table below.

Ascendant Sign Prediction

What is Ascendant ?

The Ascendant or *Lagna* is the rising sign. *Lagna* means attached to the earth's horizon line. This is for the time and location of a specific chart. This signature is very important and is almost a miniature biography of the person under analysis. It gives a very vital overall outline of the qualities of the chart being interpreted.

Your ascendant is LIBRA

Libra is the positive sign of Venus. As sign number 7, it gives leadership, power and command of ideas. Libra individuals have a strong sense of harmony, justice and balance, particularly in the realms of ideas. They are sensitive, humanitarian, excitable and hence the power to arouse and influence the masses. Their orientation is often political, in which sphere they often become leaders. They like fame and recognition and seek an audience for their ideas. Librans are usually attractive and have a charisma that may become sexual. They are much concerned with love with home and family, but under the rule of Venus, they do like to have beauty around them. With their sociable nature, they are often successful and want to make a mark upon the world. They like business situations that give them administrative power or ability to influence others; yet they can lose themselves in their goals and projects. A Libran soul will seek business where there is beauty and aesthetics dominated by Venus and where he can seek power and administrative control over the masses. On the negative side, a Libra can become emotionally unstable and get lost in indecision as well. Many of them suffer due to choice of wrong life partner since they are too much in a hurry to formalize their romantic alliance.

Sun sign Prediction

What is Sun sign ?

This is the sign where your Sun is located. This prediction denotes the basic instincts or inclination that you may have all through your life. The predictions given in this area will depend on the strength of your Sun, other astrological factors like house location, aspect, cohabitation with other planets etc will give a more detailed and accurate picture.

Your Sun sign is LIBRA

The main characteristic in your nature is judgment and analysis. You analyze every situation in its minute details before deriving any conclusion from it. This quality of yours will always make you take a stand in favor of just causes. However, another important trait in your character is your peace loving nature and your general apathy to take on any hassles.

Thus, sometimes you will compromise with injustice and wrong doings for the sake of peace and harmony. This quality of yours will give you great social skill and social acceptability. Justice and harmony will be the two major driving forces in all your actions, whatever, may be your vocation, you would always strive to achieve equality with justice and thereby increase happiness for everybody as much as possible.

You will have a natural talent to acquire and absorb any new body of knowledge by your strong analytical power. If circumstances are favorable, you may devote your entire life to research and academic pursuit, even if circumstances are not favorable for pursuit of academic research in your life, you will still display a great scientific and analytical bent of mind. You will have definite opinion about everything and as a result, there will never be any hesitation in any of your actions or thought. Because of your analytical power, you will have a great sense of perspective and vision about future.

At some stage in your life, you may develop great spiritual and also intuitive power. Thus, if you consciously develop this part of your nature, you may achieve spectacular spiritual success in your life.

However, because of your strong scientific temper and reliance only on physical evidences, you may ignore some of the supernatural and extrasensory experiences in your life and you may not cultivate these traits at all and people will not usually realize your stray perceptive power.

The main weakness in your character is your love for peace and comfort. You just cannot stand disharmony or differences, as a result for the sake of peace and pleasure, you will often compromise on your principles and you may also be swept away by your desire to pursue sensual pleasure even at the cost of every other interest in your life. However, as and when you will realize futility of such meaningless pursuits, you will be able to put a brake and make proper course corrections in your life.

As already mentioned, you will have a definite opinion on every thing and you will be willing to change them only if somebody can

convince you through cold logic and rational arguments.

You will generally be very polished and will have sophisticated manners. Deep down your heart, you will be more concerned with inner joy than be gratified with purely material and sensual pleasures. You will have a slightly egoistic streak in your nature but by and large you will believe in fair play and justice.

In spite of having such wonderful qualities, please note that your Sun is debilitated and this would mean a weakness of personality. Kidney ailments, lower back pain, sexual weaknesses, headaches etc. are likely to be among your primary medical problems.

This is an unfortunate signature and is especially bad as it means a slow or troubled start in life.
